Mr. John Osborn and wife also came to this city and stopped at the St. James, Mr. H. L. Peyton, the agent of the Midland road in this city, exerted himself to make the injured persons comfortable. Two watches were lost in the wreek, a draft for \$300 belonging to Mr. Lyle and checks belonging to Mr. Osborn.

A passenger states that the car that went over the abutment was so completely demolished that it was a shapeless mass of splinters. The other car was not so badly wrecked. The rail that caused the accident was broken in five pieces in as many feet.

AN ACCOUNT BY TELEGRAPH.

ALEXANDRIA, VA., Jan. 11.—The night train on the Virginia Midland failroad, which left here at 245 this a. m., ran over a broken rail one hundred and fifty yards north of Kettle Run bridge, dred and fifty yards north of Kettle Run bridge, between Manassas and Bristoe, and thirty miles from this city. YESTERDAY'S SITUATION.

New ORLEANS, Jan. 11.—There is no change in the situation this morning, and the orders of Gen. Auger, virtually forbidding any aggressive movements by either party, will doubtless prevent any cellision. All eyes are turned to Washington, waiting events there. Gov. Packard has commissioned A. G. Badger, major general of the Louisiana State National Gward, and ordered him to organize the first division to-day. The Republican, in summing up the situation this morning, admits that if force is to decide the question of supremacy the Eepublicans are powerless against their opponents, who, it says, are fully organized, equipped and trained in the use of arms. vent any cellision. ADDITIONAL OFFICES SEIZED.

NEW ORLEANS, Jan. II.—It is reported that Capt. McGloin's company of Nicholis' militia has taken possession of the offices of the recorder of mortgages and register of conveyances, on Charles street.

Antoine's friends assert that Pinchback spirited away the four absent Republican Senators, who are on Lake Ponchartrain fishing, and that they will not return except to secure Pinchback's election to the United States Senate.

It is doubtful whether an election for Senator will take place to-day, even if a quorum of the joint assemblies can be had, which is exceedingly doubtful, as it is understood to be the policy of some members to prevent an election until a solution of present difficulties in regard to the State government is arrived at.

It is generally conceded that the question turns at present on which of the Supreme Courts is the legal one, and on this subject the authorities at Washington are being fully informed by both sides of the legal issues involved. Each Governors are being besieged by applicants for office and their political friends, rendering access to them exceedingly difficult. A crowd of some two hundred, nearly all colored men, is around the State-house. The streets present no unusual appearance.

GENERAL ACGURTHINGS THE WUDDLE WILL BE NEW ORLEANS, Jan. 11.—John McEnery, who took possession, under an appeintment from Nicholis, of the office of recorder of mortgages, is he late Democratic Governor.
In an interview with Gen. Augur this morning In an interview with Gen. Augur this morning the Times reports him as saying that he thought the muddle would be quietly and peaceably settled, and that he would not interfere axcept in case of riot or bloodshed, or in the event of any attempt being made to prevent the Legislature from pursuing its duties. This last signified either Democratic or Republican Legislature, as was afterwards explained. He had heard nothing of ne increase in the police force, and did not deem it of any moment.

THE FIELD.

New ORLEANS, Jan. 11, 2p. m.—Two members of the Republican' House, Mr. Barrett, of Rapides, and Mr. Kennedy, of St. Charles, are just reported as having withdrawn from that body, and given their reasons therefor in speeches.

New Orleans, Jan. 11, 245 p. m.—The Republican Legislature had one ballot for United States Senstor his afternoon, resulting as follows: Pinchback, 20; Antoine, 21; Lewis, 13; Beattie, 12; Anderson, 4, and scattering 6. The Republican Senate is still without a quorum. One member of the House came in to-day, and that body still has no quorum. Pinchback's frience claim that he is the master of the Senatorial situation. No disturbances are reported to-day.

CONGRESSIONAL DISCOVERIES IN THE HORRIBLE METHODS OF INTIMIDATION PRACTICED SOUTE

"HILD PINNETON TESTIFIES."

NEW ORLEANS, Jan. 11.—Before the Senate committee to-day George Tanner, colored, testified to general intimidation of colored voters and several whippings. One he witnessed; victim being Mrs. Holmes, and was also present at the hanging of Babe Mathews, John Gaire' sister, in Clinton; that she was taken from jail by white men, one of whom offered a prayer for her. It was decided by vote to hang her and she was then hung.

Thos. Mitchell, colored, testified to general intimidation and violence in the parish.

Elliza Pinkston was examined. She had a handkerchief about her head, and walked with difficulty. Her testismony was substantially the same as that already published, but ahe stated that her husband was a firm Republican, and had been threatened because he had left a Democratic meeting before it was over, and that he attended a Republican meeting the night before he was killed, and that after the killing of Heary, and while she was hiding, she had been assured of pretection if she would say it was black men that killed Henry and wounded her.

She will be cross-examined to morrow.

Dr. C. B. White, resident of New Ork ans, test', fied to numerous wounds, twelve in all, which Elisa Pinkston's body showed when she reached the city. Most of them were cicatriced and superficial, and that her wounds in themselves were not immediately dangerous at that time, but her condition was one of nervous prostrution. NEW OBLEANS, Jan. 11.—In an interview today Gev. Paskard stated that he intended to retake the Supreme Court building, but that he
would proceed under forms of law, and would
avoid a confict, which would remain as a cause
of bitterness after the recognition of his government, which event he regarded as certain.

Cel. Osey returned to-day, and denies that he
has Senatorial aspirations; that the first he knew
of his name being connected with the confect was
learned here tr-day.

The Nicholis Legislature had another ballot
to-day for United States Senator without result.
Four Senators who left the State House are
cald to be at Pinchback's residence, with a guard
of Nicholis' police around the house at their request, to prevent their capture by the sargeantat-arms.

Barrett and Kennedy, who withdrew from the
State House, were admitted to Odd Fellows' Hall
Legislature as members, and gave their reasons
for changing. Harrett 'n dig iantly denied the
statement that money had been offered him, and
hiter denouncing the other body in unmeasured
terms, said that he left because he saw his property
was being legislated from him. Kennedy
asserted that the State House Legislature had
passed a number of bills which were never read
or referred to committees.

The Nicholis Legislature regards the election
of Eustis last year as valid, and will only elect
one Senator.

TRYAS PACIFIC RAILROAD SCHEME.

The House Committee on Pacific Railroad yesterdsy authorized their chairman to report the so-called compromise Texas Pacific railroad bill to the House at the first opportunity, with a resommendation for its passage. The bill was adopted as prepared by the sub-committee without any material amendments.

The question as to the confficting New Orleans branches is left open for decision of the House. The branches from Vicksburg, Memphis, and St. Louis, by way of Vanlist, are provided for in the manner beretofore stated.

The vote ordering the bill to be favorably reported was unanimous, but it is understood that at least one member of the committee reserves the right of opposing it in the House.

SENATOR JONES AND THE SILVER BILL.

Senator Jones, of Nevada, is now in the citylafter an absence that has extended over nearly the entire ression. He has been diligently occupied, however, with his duties as chairman of the silver commission, and has been ceilating information he has received from different foreign nations. He does not anticipate a report before the end of the sension, because it requires so much time to obtain statistics and opinions from abroad. The commission will sit in Washington soon and hear additional testimony. Mr. Joses does not anticipate sary action by the Senate on the Bland silver bill until the report of the commission has been made, when he thinks they will be prepared to act intelligently upon that or some kindred measure. The Bland bill is now slumbering in the room of the Committee on Finance.

There will be a meeting of bankers from all over the country in Washington on the Sith of January to lobby through a bill already introduced repealing the internal revenue tar on capital and deposits of national banks and viviate banking institutions. There is very little prebability of any success resulting from this endeavor, as there will be a strenuous opposition in and cut of Congress to snything that loads like a reduction of the revenues of the Government, and against this reduction in particular, because of the familiar claims that the tarce the poor people pay must be removed before the taxes the poor people pay must be removed before the taxes

EXTENDING THE CAPITOL GROUNDS

Petitions are in circulation in this city and elsewhere asking Congress to enlarva the Capitol grounds by the purchase of all the real estate lying between Second street east and Second street east and Second street wast and Bairest south. One object of this is to make the Capitol park sufficiently large for all time to come; also to furnish appropriate sitas for the erection of buildings for the Congressional Library. Supreme Court and National Museum. No more proper locations for the said buildings could be feund in the city of Washington. It is due to that part of the city, which is now rapidly building up with substantial buildings, that some public buildings should be erected immediately east of the Capitol. It is worthy of special notice that the extension of the grounds east of the Capitol, as proposed, would bring into the Capitol grounds more land free of cost than will have to be paid for, in consequence of swemes, streets, alleys and triangles. It will be remembered by many citizens of this District that a few years ago, when the subject of enlarging the Capitol grounds was agitated in Congress, Sensiors Douglas, Bright and other patriotic members of that body were in favor of extending the grounds from Third street east to Third street west, and from C street north to C street south, and had plans and specifications drawn accordingly.

THE AD INTERIM QUESTION. The question whether the provision in the Revised Statutes governing the ad-interim appointment to wacancies by the President applies to the ad-interim cocupation of a bureau position, has been a fruitini topic of discussion in the Patent Office for several days. On the resignation of Commissioner Duell his place was supplied by plasing Assistant Commissioner Doublitle at the head of the Patent Office Bureau. Mr. Doublitle assumed the ad-interim position on Saturday, the head of the Patent Office Bureau. Mr. Decilitie assumed the ad interim position on Saturday, the 20th of December. Counting business days and including the New Year's holiday, the limit mentioned in the 180th paragraph of the Revised Statutes, Forty-third Congress, (1873 to 1875,) espired to-day. But Mr. Decolitile expresses the opinion that the tan days' limitation in the paragraph referred to does not apply to a temporary bureau appointment, and that should the Secretary of the Interior see fit to retain him in his present position for an indefinite period he may lawfully do so. It is stated that the Atterney General has so ruled in one or two like instances. There is some anxiety among the chief examiners of the Patent Office, who will to-day make up the cases for the week, to be signed, as to whether they may not be compelled, as in a former instance, to festroy all the issues made up this week for the want of a legal officer to give them official force by his approval and signature. Up to a late hour yesterday no intimation had been given of the appointment of a new Commissioner.

A FOOR MEMORY ON CHATAIN THINGS.

Ry Mr. Williams: Q. I would like to have you give the language which Mr. Martagh used, if you can? A. It is impossible to give his exact language. His first visit to me was at the office in the police headquarters. He commenced by stating, as mearly as I eas recoilect it, that the Committee on Naval Affairs, of which Whittherne was chairmin, was pursuing the investigation of the affairs of the Secretary of the May in regard to contracts, as, to an extent which was not justifiable; that the committee wasgoing into personal and private matters, and that he thought it would be perfectly legitimate and proper to counteract those efforts in some way.

Q. What effort did he tell you he meant? THE MANY INVESTIGATION AND MR. WHIT-

THE EASY INVESTIGATION AND MR. WHITTHOUSE.

A. The efforts of the committee to procure certain facts in the investigation to show up certain fragalarities in the Navy Department. He named no particular transaction. That was his first representation (and it was made from time to time) that this investigation was unjustifiable; that it was more of a persention than an investigation, and that he wished to have some facts developed which could be held in Ierreres over Mr. Whitthorns to prevent this, or to modify the report which would be made by the committee to the House of Espresentatives; or in other words to prevent the investigation from being pushed so far as to develope extain things which might possibly be developed if it was pushed to a certain extent. It was believed that the helding of these facts over Whithorns would restrain him, either in the report or in his investigation.

Q. This is what Mr. Murtagh stated to your A. Yes.

Q. This is what he wished in regard to the report which you were to make? A. Nothing further than simply report what the efficers were accomplished to whether they found Mr. Whithorne visiting houses of prestitution, or being connected with women for improper purposes, or whether they found any set of his thest would tend to diagrace or degrade him if it was made mablic. pablic.
Q. Did Mr. Murtagh state what was to be done with that report? A. It was stated that the Secretary of the Navy was very anxious about these facts. Q. Did Mr. Muriagh state that? A. Yes, and that the Secretary wanted to know what had been done.

Q. And Mr. Murtagh requested you to make this report in writing? A. He requested the officers who were at work upon it to make a report in writing.

cors who were at work upon it to make a report in writing.

By Mr. Davy. Q. I understand you to say that Mr. Muriagh stated that the Secretary of the Navy requested him to do thir! A. No.! do not think he said that the Secretary of the Navy had requested him to do it. He only said that the Secretary was anxions in regard to the investigation, and as to the manner in which it was being pushed, and that he wanted certain information in regard to the habits of Mr. Whitthorns. Mr. Muriagh did not say that he did it by request of the Secretary of the Navy.

Q. Was that in the first conversation that you had with him? A. Yes; and in all of them, so far as he went into any general discussion of the maiter. matter.

By the Chairman: Q. State whether Mr. Murtagh, at the time he made this request of you, was supposed to have considerable influence with the President or the Administration in the appointment of Police Commissioners and in the control of matters here. O. State if you know of anything being done by Murtagh in regard to interfering with any jury? A. My knowledge on the subject is very limited. THE CHARGE OF BRIBERY DOES NOT PAN OUT

THE CHARGE OF BRIBERT DOES NOT PAN OUT WELL.

Q. State what it is. A. All I know about that matter is this: Several years ago, when the trial known as the McGarrahan trial was in progress in the sourie, Mr. Murtagh came to me one day and said that he wanted a detective to render him some sastsance in that trial.

Q. Who were the parties to that trial? A. If I recollect aright it was a suit for libel instituted by McGarrahan against Murtagh and The Republican newspaper.

Q. State what took place. A. I directed his attention to Detective Miller. What took place between him and Miller I do not know, except that one day subsequent to that, in driving on the Avenue, Mr. Murtagh came up in a buggy and spoke to Miller. What the conversation was I did not try to hear; I only know what it was by what was told me by Miller.

Q. To what political party do you belong? A. I always affiliated with the Republican party, so far as I belong to any political organization. I have not belonged to any political organization. I have not belonged to any for a number of years, and the rules of the police force do not permit us to take an active part in polities.

The Chalrman suggested that if Mr. Murtagh was present he might ask the witness any question he desired.

Mr. Wilson appeared as counsel for Mr. Murtagh, and requested the postponement of the cross-examination of the witness until to-morrow, as he hed not heard the first part of the testimony. There being no objection, it was so ordered.

Mr. Wilson also suggested, in justice to Mr. Wells. the Utstrick Avenue, that the witness and

as he had not heard the first part of the testimony. There being no objection, it was so erdered.

Mr. Wilson also suggested, in justice to Mr.
Wells, the District Attorney, that the witness be
asked whether any negligence in the prosecution
of gamblers had been shown since Mr. Wells had
become the incumbent of that office.

The Witness. I would state mphatically that
no apparent or real neglect on the part of the Dis;
trict Attorney has ever been manifested to me
on the contrary, he has frequently sent anonymous
letters to me in regard to gambling houses, which
letters were received by him, and he has always
manifested, so far as I am aware, a disposition to
prosecute gamblers.

Hy Mr. Williams: Q. How long has he been
District Attorney? A. Something over a year.
Adjourned until 10 o'clock this morning. "RUM ROW."

The Gamblers Depressed—The Success of the Conspiracy Their Last Hope.

While all the investigations are going on, and the fires and cross fires kept up, the gamblers are suffering. They were the original cause of the whole disturbance, and they find themselves now unprotected by their associates, the police, and unable to keep up their former expansive habits. Mr. Billy Cook yesterday took a walk through the "Row," complacently surveying the closed blinds, and Bedding at the loungers. Perhaps he wanted to remind the "Row" fellows that it was about time those fees were paid. This reverend lawyer distinguished himself before the Police Board as a new trinity, representing in one person three characters—the atterney for the board, the attorney for the gamblers and the attorney for Major Richards. The duties of the last two offices were easily harmonized. Before the Coagressional committee he represents Major Richards. The duties of the last two offices were easily harmonized. Before the Coagressional committee he represents Major Richards and the gamblers only.

A member of the gambling fraternity remarked yasterday that he did not think any gamblers would testify before the committee of Congress. It was said by another knight that the gamblers knew that the best thing for them to do when the investigation was going on at headquarters was to break it up if possible. So they did their best to confuse things and have it turn out a fizzle.

POWER OF THE GAMBLERS.

Power of the gamblers.

People sot learned in all the ways of the world will be slow to believe that the gamblers had power enough to influence Congressional action. But theirs is one of the most powerful cliques in the country. A blow at gambling in the National Capital is a blow at the frateraity in every city of the country. They combine for mutual protection, and can bring influence and money enough into play in the fight tochange all the law on the subject of gaming. An instance was noted in True Refuelloan not long since where a Governor of a State was compelled to go in person to a complainant and beg him to withdraw from the prosecution of gamblers. Gamblers, besides controlling money, have other ways to get INPLUENTIAL MEN IN THEIR POWER.

INFLUENTIAL MEN IN THESE POWER.

In the gilded saloons of the gamesters can be found legislators and high officials, who drink at the side board and play at the table. The gamblers hold these men as their own. It seemed at first as though the gamblers had gained a great victory in having a bill shoved through Congress to abolish the Police Board. Run Row and police headquarters for one night were illuminated with smiles. But the President was firm. No gambling clique could reach the White House. The commissions of the new Police Board were issued, and the faces of gamblers and detectives grew long again.

The New Police Hoard.

Those members of the new Police Board who are in the city were yesterday officially notified of their appeintment. Hon. Frederick Douglass is away from town and could not be notified. All but one member have signified that they would accept the appointment, and the board will probably be organized to-day.

TOPMES, KAM, Jon. 11.—The Governor read his message himself to day to the Legislature in joint session. It was contined mainly to local matters, but referred to the present condition of national affairs as follows: This condition of things was made possible by a magnanimity without reason and animotity without precedent, by which we made haste to say that treason was not a crime to be remembered and traitors not men to be feared in power. These acts were sweet to the taste of mercy and consoling to the spirit of forgiveness, but they have proved aches in the mouth of wisdom, and bitterness to the soul of justice. By this mistaken action and unreasomable conference men who but a few years ago were in open, armed rebellion against the

spirit of forgiveness, but they have proved ashes in the month of wisdom and bitterness to the soul of justice. By this mistaken action and unreasonable confidence man who but a few years ago were in open, armed rebellion against the constituted authorities of our Government in a war without historical parallel in extent and cruelty have found their way back into the halls of legislation and positions of scalted excentive and judicial trust in National and State Governments.

If these men, when thus resisted, had, by their acts, vindicated our confidence in their returning loyalty and love of country, it would have been a sublime communation for which the nations of the earth have sighed in vain since fuman governments organised. But such a consummation was not possible, because human acture intervenes to prevent a conquered for from becoming a trusted friend. The leaders of that greatre-bellion may bow a manly submission to the results of a war in which they lost swaything, but they can aware coace to chorials the Lest Cause as the jewel of the secret happ of their innoheart; nor would we respect them more if they could. The scene we admit this great fundaments alove the parils of rebellion and revolution, by keeping its control in the hands of those whose love for its priceless blessings is paramount to the love of life itself.

In this, as in all previous conflicts, involving the questions of human rights, human equality and free government, Kansas stands before the world in the same heroic attitude it has ever maintained in its majorities in national and State ilekets, and in almost complete unanimity of your body. It has reaffirmed its devotion to right, and renewed its pledge to sister States and the world that is will not be guilty of treason in the nuture by forgetting the bloody record of treason in the integral talk of force. We fervently pray that the discordant alaments of war may not again, curie our land, but if needed to protect and defend the search gas of the last great struggle the people of K

The advantage of this compound over the plain

long acted ass prominent objection to its use; but
in this form the trouble is entirely obviated. A
host of certificates might be given here to testify
to the excellence and success of "Wilbor's Cod

regularly prescribed by the medical faculty is
sufficient. For sale by A. B. Wilbor, Chemist,
